Report of the Commissioners of the Village District of Little Boar's Head

"Behold the Sea"

As we again report to you on the condition of the Village District of Little Boar's Head we are reminded of the stirring words "Behold the sea!" with which a full chorus opens Raef Vaughn William's "A Sea Symphony" based on poems by Walt Whitman. So too, in L.B.H. we behold the sea. Whether our homes border on it or are removed slightly from it, we are all influenced by its presence. It is one of the principal reasons we choose to live here.

Activities

We have made some progress—and we have failed to make some progress—in some of the areas of service to you, our residents. We have begun to substitute concrete walks in an area where we have traditionally had board walks—at Bass Beach. We hope to go further in the ensuing year. However, we will not replace board walk with concrete in the area which is commonly devastated by storms in the winter—the south end of Bass Beach. We also plan to replace existing sidewalks where they have become worn and broken. This is for the benefit and enjoyment of our many residents who walk, jog, or bike along to enjoy the striking ocean views.

On street lights—we have three, only one of which is currently in order. Another was taken down by the snow plows and the third had the line cut when they re-laid the water line.

On the positive side, however, pick-up along our major streets has improved, thanks to the good work of Dorothy Marson and Commissioner Burnell and his offspring. Mowing along the front has been done at a reduced cost but with less frequency.

Specific Concerns

Litigation is still pending between our District and one of our residents, the result of numerous complaints from neighbors regarding violations of our dog control ordinance. This matter has dragged along for some time and we are taking steps to try to bring it to a conclusion.

Together with the Selectmen of North Hampton we are keeping informed on the matter of the Seabrook Station. We have been concerned regarding its safety, the matter of a satisfactory evacuation plan, and the matter of limited liability under any revision of the Price-Anderson Act. We will keep you informed.

The Salt Marshes

We had hoped to have a partial solution to the deterioration of our two salt marshes. We felt we had such a solution with regard to the

drainage of Bass Beach marsh, and last year had appropriated \$2,000 as matching funds for a plan to open the trunk there. This project has been deferred due to the possible effect it might have on some property owners. There may be Federal funds available for another grant for a more definitive survey and comprehensive mapping project. This is being explored through the good offices of one of our property owners.

The Budget

The budget this year is one of the more modest in recent memory. This is because we did not spend some of last year's appropriations, and also the fact that we will fund some of the sidewalk repairs from Trust Funds.

Sanitation

Our neighboring Town, Rye, is having problems regarding the disposition of their sewage, and has discussed with the North Hampton Selectmen and your Commissioners the possibility of passing a pipe through our Village District to tie in to the Hampton system. Our position is that this is agreeable with us providing the pipe runs along Ocean Boulevard, that the plans are submitted to us for approval, and that when finished the area will be restored to its original condition. We do not know the eventual outcome of this but we do know the problem in Rye has not been resolved as yet.

Growth

There continues to be heavy growth in Southern New Hampshire in general and in the Seacoast area in particular. In 1890 there were 24 domiciles in Little Boar's Head. In 1920 there were 46. In 1986 there were 140. All of this brings somewhat mixed blessings. These economic forces have resulted in land prices becoming elevated and increased the necessity for careful zoning laws and administration.

To this end we held a zoning seminar this spring which was addressed by Ann Thompson, Esq., of the firm of Sanders and McDermott in Hampton. This was attended by members of our Zoning Board of Adjustment, Commissioners, and others. Our position on all of this is that we feel you, our residents, support us in our careful and vigorous enforcement of our zoning laws. We welcome your comment and your input in the matter of zoning.

General

Finally, we thank all the various persons who contribute so much of their time and effort to make our Village District work. All are unpaid—the Secretary, the Treasurer, the members of the Zoning Board of Adjustment, and of course your Commissioners. Without this healthy volunteerism there would be no Little Boar's Head.

Little Boar's Head, New Hampshire.

Flooding is not a new phenomenon. Above shows an old post card showing the marsh in flood stage in about 1910. Below is the flooding that occurred last April 10, 1987. When such flooding endangers the State highway, they will come down and open one of the old exits of Little River. It silts up, however, in about two days.
